E-PRESCRIBING/MEDICATION HISTORY CONSENT FORM

The providers at Campbell Family Practice and Ghebraniou Internal Medicine use an electronic medical record system that allows electronic prescribing of medications. Prescriptions are sent to your pharmacy through a secure connection (RxHub) which improves the accuracy and timely transmission of your medical information. E-Prescribing greatly reduces medication errors and enhances patient safety. There are several standards that have to be included in an e-prescription program. These include:

- **Formulary and benefit transactions-** Gives the prescriber information about which drugs are covered by the drug benefit plan.
- **Medication history transaction-** Provides the physician with information about previous and current medications the patient is taking to minimize the number of adverse drug reactions.
- **Fill status notification-** Allows the prescriber to receive an electronic notice from the pharmacy telling them if the patient's prescription has been picked up or partially filled.

MY SIGNATURE CERTIFIES THAT I HAVE READ AND UNDERSTOOD THE SCOPE OF MY CONSENT AND THAT I AUTHORIZE THE ACCESS OF MY MEDICATION HISTORY.
